

Your final project if you wish to accept it, a new contracting company is looking for bright young minds to find the dimensions of this house. They need the ENTIRE surface area, for this you will NOT have to do a work shown podcast (you can for extra credit). All they want are the answers they seek.

The triangular figures (2 of them) are (base- 12 ft, height- 8 ft)
The rectangular figures (4 of them) are (length 12 ft, width 8 ft)
The bottom square figure (1 of them) is ?

Please find the bottom square area and the total surface area of the house.
